HEADQUARTERS
DEPARTMENT OF THE ARMY
WASHINGTON, D.C., *17 November 1965*

DS, GS, and Depot Maintenance Repair Parts and Special Tool Lists

TELETYPEWRITER SET AN/PGC–1 INCLUDING TELETYPEWRITERS TT–4A/TG, TT–4B/TG, TT–4C/TG, AND TT–335/TG

TM 11–5815–206–35P/1, 6 November 1964, is changed as follows:

Section I. Delete paragraph 6 and substitute:

6. Reporting of Equipment Manual Improvements

The direct reporting by the individual user of errors, omissions, and recommendations for improving this manual is authorized and encouraged. DA Form 2028 (Recommended Changes to DA Publications) will be used for reporting these improvements. This form will be completed using pencil, pen, or typewriter and forwarded direct to Commanding General, U. S. Army Electronics Command, ATTN: AMSEL–MR–(NMP)–MA, Fort Monmouth, N. J. 07703.

Section II. Make the following changes:

Page 7, Federal stock number column, "5305–297–7966". Clarify first line as follows:

Source Code column, subcolumn B: P1; subcolumn C: F.

Federal Stock Number column: 5305–297–7966.

Designation By Model column, subcolumn 1: +.

Description column: SCREW, CAP, SOCKET HEAD: Kleinschmidt.

Qty In Unit column: 2.

Direct Support column: 3.6.

General Support column: 2.3.

Depot column: 65.0.

Fig. No. column: 75.

Item No. column: 10009.

Page 8. Make the following changes:

Federal stock number column, "5305–514–6805". Item No. column, change "100055" to 10055.

Add the following items after "HOLDER, CONTACT" in the columns indicated below:

EMFO LIBRARY

Source Code				Federal Stock No.	Designation By Model						Description	Qty In Unit	Maintenance Allowance			Illustration	
													Direct Support	General Support	Depot	Fig. No.	Item No.
A	B	C	D		1	2	3	4	5	6							
	P1	F		5815–356–3518	+	+	+				TERMINAL, LUG: Sig dwg No. SC–B–69846.	2	0.8	0.4	5.0	75	51597
	X1	F			+	+	+				LEAD, ELECTRICAL: Kleinschmidt part No. 51610.	2				75	51610

Page 9. Make the following changes:

Description column, add the following heading on the line after "AN/PGC–1 (Including TT–4A, B, C/TG) (continued)":

GROUP 2
FIGURE 76

Federal stock number column, "5305–721–5430". Source code column, subcolumn B, add: P1; subcolumn C, add: F.

Federal stock number column, "5310–515–7997". Make the following changes:

Description column, change "(Authorized allowances based on a total of 35 in TT–4A/TG; 52 in TT–4B/TB; 85 in TT–4C/TG)" to (Authorized allowances based on a total of 39 in TT–4A/TG; 54 in TT–4B/TG; 77 in TT–4C/TG). Direct support column, change "8.7" to 7.8. General support column, change "3.7" to 5.6. Depot column, change "425.0" to 385.0.

Add the following items after Federal stock number "5310–523–2035" in the columns indicated below:

Source Code				Federal Stock No.	Designation By Model						Description	Qty In Unit	Maintenance Allowance			Illustration

Page 10. Make the following changes:

Delete the following items in their entirety:

"THERMAL, LUG"
"LEAD, ELECTRICAL"
"WASHER, NONMETALLIC"

Delete heading, "GROUP 2, FIGURE 76".

Federal stock number, "5305–533–5362". Description column, change "in TT–4B/TG" to 4 in TT–4B/TG.

Page 11. Make the following changes:

Federal stock number column, "5310–209–3990". Qty in unit column, change "33" to 3.

Federal stock number column, "5310–198–3711". Source code column, subcolumn B, delete "P1"; subcolumn C, delete "F".

Page 13. Make the following changes:

Federal stock number column, "5340–263–3849". Description column, after "(Authorized allowances based on a total of 8 in TT–4A/TG", add: 2 in TT–4B, C/TG).

Federal stock number column, "5815–030–0429". Item No. column, change "52583" to 52582.

Page 15, Federal stock number column, "5815–547–7870". Item No. column, change "5041A" to 54041A.

Page 16. Make the following changes:

Clarification of first line of item following Federal stock number "5815–607–3895":

Source Code column, subcolumn B: P1; subcolumn C: F.

Federal Stock Number column: 5815–607–3897.

Designation By Model column, subcolumns 2 and 3: +.

Description column: KEY, TELETYPEWRITER: Marked C;.

Qty In Unit column: 1.
Direct Support column: 1.0).
General Support column: 0.5.
Depot column: 5.0.
Fig. No. column: 77.
Item No. column: 57808A.

Federal stock number column, "5310–546–6858". Description column, after "(Authorized allowances based on a total of 1 in TT–4A/TG"; add: 2 in TT–4B/TG; 3 in TT–4C/TG).

Federal stock number column, change "5310–523–2143" to 5340–298–7072.

Page 18, Federal stock number column, "5305–207–8967". Make the following changes:

Description column, after "(Authorized allowances based on a total of 32 in TT–4A/TG; 28 in", add: TT–4B/TG; 25 in TT–4C/TG. Qty in unit column, change "22" to 2.

Federal stock number column, "5310–637–3944". Description column, after "(Authorized allowances based on a total of 12 in TT–4A/TG;" add: 11 in TT–4B, C/TG.

Note. Change page number "20" to: 21. Change page number "21" to 20.

Page 20, Federal stock number column, "5305–639–7510". Source code column, subcolumn B, add: P1; subcolumn C, add: F.

Page 24, Federal stock number column, "5977–521–8272". Source code column, subcolumn C, change "G" to F.

Page 25, Federal stock number column, "5940–050–6212". Add the following in the columns indicated below:

Qty In Unit column: 2.
Direct Support column: 0.8.
General Support column: 0.4.
Depot column: 10.0.
Fig. No. column: 81.
Item No. column: 20708.

Page 29, Federal stock number column, "6105–059–9166". Source code column, subcolumn B, add: P1.

Page 31. Make the following changes:

Federal stock number column, "5305–333–4254". Description column, change "6 in TT–4A/TG" to 5 in TT–4A/TG.

Federal stock number column, "5310–209–3990". Designation by model column, subcolumns 1, 2, and 3, add: +.

Page 33, Federal stock number column, change "5311–198–3711" to 5310–198–3711.

Page 36. Make the following changes:

Federal stock number column, change "5305–521–9034" to 5305–531–9034.

Federal stock number column, change "5305-270-5987" (three appearances) to 5305-570-5987.

Note. Change page number "39" to 40. Change page number "40" to: 39.

Page 39, Federal stock number column, change "5815-256-3492" to 5815-356-3492.

Page 41, Federal stock number column, change "5305-207-7962" to 5305-297-7962.

Page 47, Federal stock number column, "5305-570-6002". Description column, change "TT-42/TG" to TT-4A/TG.

Page 51, Description column, "PLATE, CLAMP". Clarification of Federal stock number: 5815-757-2263.

Page 59, Federal stock number column, "5310-515-7997". Fig. No. Column, delete "99".

Page 60, Federal stock number column, change "5310-395-6939" to 5310-395-9639.

Page 66. Delete PIN, GROOVED and PLATE STOP in their entirety and substitute the following items in the columns indicated below:

Source Code				Federal Stock No.	Designation By Model						Description	Qty In Unit	Maintenance Allowance			Illustration	
													Direct Support	General Support	Depot	Fig. No.	Item No.
A	B	C	D		1	2	3	4	5	6

SECTION I
INTRODUCTION

1. Scope

a. This manual lists the quantities of repair parts for direct support, general support, and depot maintenance and is a basis for requisitioning authorized parts. It is also a guide for depot maintenance in establishing initial levels of spare parts.

b. Columns are as follows:

(1) *Source, maintenance, and recoverability code.* Source, maintenance, and recoverability codes indicate the technical service responsible for supply, the maintenance category at which an item is stocked, categories at which an item is installed or repaired, and whether an item is repairable or salvageable. The source code column is divided into four parts.

(*a*) Column A. This column indicates the materiel code and designates the area of responsibility for supply. AR 310–1 defines the basic numbers used to identify the materiel code. If the part is Signal materiel responsibility, the column is blank.

(*b*) Column B. This column indicates the point within the maintenance system where the part is available. "P" indicates that the repair part is a high mortality part; procured by technical services, stocked in and supplied from the technical service depot system, and authorized for use at indicated maintenance categories. "P1" indicates that the repair part is a low mortality part; procured by technical services, stocked only in and supplied from technical service *key* depots, and authorized for installation at indicated maintenance categories. "M" applies to repair parts which are not procured or stocked but are to be manufactured by using units at indicated maintenance categories. "A" applies to assemblies which are not procured or stocked as such but are made up of two or more units, each of which carry individual stock numbers and descriptions and are procured and stocked and can be assembled by units at indicated maintenance categories. "X" applies to parts and assemblies which are not procured or stocked, the mortality of which should result in retirement of the end item from service. "X1" applies to repair parts which are not procured or stocked, the requirement for which will be supplied by use of the next higher component or assembly. "X2" applies to repair parts which are not stocked. The indicated maintenance categories requiring such repair parts will attempt to obtain them from salvage. If not obtainable from salvage, such parts will be requisitioned with supporting justification through normal supply channels. "Z" applies to obsolete parts no longer stocked or procured. "C" applies to repair parts authorized for local procurement. If not obtainable from local procurement, such parts will be requisitioned through normal supply channels, with a supporting statement of nonavailability from local procurement.

(*c*) *Column C.* This column indicates the lowest maintenance category authorized to install the part.

"O"—Organizational maintenance (operator and organizational)
"F"—Direct support maintenance
"H"—General support maintenance
"D"—Depot maintenance

(*d*) *Column D.* Not used.

(2) *Federal stock number.* This column lists the 11-digit Federal stock number.

(3) *Designation by model.* The dagger (†) indicates the model in which the part is used and further, by its position, designates the item numbers in which the item is identified, and/or the quantity used in each model where the quantity varies.

(4) *Description.* Nomenclature or the standard item name and brief identifying data for each item are listed in this column. When requisitioning, enter the nomenclature and description.

(5) *Unit of issue.* The unit of issue is each unless otherwise indicated and is the supply term by which the individual item is counted for procurement, storage, requisitioning, allowances, and issue purposes.

(6) *Expendability.* Nonexpendable items are indicated by NX. Expendable items are not annotated.

(7) *Quantity incorporated in unit.* This column lists the quantity of each part found in a given assembly, component, or equipment.

(8) *Field (third echelon or direct support).* This column indicates quantities of repair parts authorized for initial stockage for use in the direct support maintenance and in supply support to organization. The quantities are based on 100 equipments to be maintained for a 15-day period.

(9) *Field (fourth echelon or general support).* The numbers in this column indicate quantities of repair parts authorized for initial stockage for use in general support maintenance. The quantities are based on 100 equipments to be maintained for a 15-day period.

(10) *Depot.* The numbers in this column indicate quantities of repair parts authorized for depot maintenance and for initial stockage for maintenance, and for supply support to lower categories. The entries are based on the quantity required for rebuild of 100 equipments.

(11) *Illustration.* The "Item No." column lists the reference designations that appear on the part in the equipment. These same designations are also used on any illustrations of the equipment. The numbers in the "Figure No" column refer to the illustrations where the part is shown in TM 11–5815–206–35.

2. Parts for Maintenance

When this equipment is used by signal service organizations organic to the theater headquarters or communication zones to provide theater communications, those repair parts authorized up to and including general support are authorized for stockage by the organization operating this equipment.

3. Arrangement of List

This list is arranged in groups by alphanumerical sequence of electrical items, followed by numerical sequence of manufacturer's part number.

4. Requisitioning Information

a. The allowance factors are based on 100 equipments. In order to determine the number of parts authorized for initial stockage for the specific number of equipments supported, the following formula will be used and carried out to two decimal places.

$$\text{Specific number of equipments supported} \times \frac{\text{allowance factor}}{100} = \text{Number of parts authorized for initial stockage.}$$

b. Fractional values obtained from above computation will be rounded to whole numbers as follows:

(1) When the total number of parts authorized is less than 0.5, the quantity authorized will be zero.

(2) When the total number of parts authorized is between 0.5 and 1.0, the quantity authorized will be one.

(3) For all values above one, fractional values below 0.5 will revert to the next lower whole number and fractional value 0.5 and above will advance to the next higher whole number.

(4) A closing parenthesis) after the allowance factor listed in the direct support column indicates that the item is combat essential and that a minimum quantity of one is authorized for initial stockage even though the computed quantity is less than 0.5.

c. The quantities determined in accordance with the above computation represent the initial stockage for a 15-day period.

5. References

A maintenance allocation chart and basic issue items list are contained in TM 11–5815–206–12. Additional instructions concerning maintenance of this equipment are contained in TM 11–5815–206–20P and TM 11–5815–206–35.

6. Reporting of Equipment Manual Improvements

The direct reporting by the individual user of errors, omissions, and recommendations for improving this equipment manual is authorized and encouraged. DA Form 2028 will be used for reporting these improvements. This form may be completed using pencil, pen, or typewriter. DA Form 2028 will be completed in triplicate and forwarded by the individual using the manual. The original and one copy will be forwarded direct to: Commanding General, U. S. Army Electronics Command, ATTN: AMSEL-MR-MA, Fort Monmouth, New Jersey, 07703. One information copy will be furnished to the individual's immediate supervisor (officer, noncommissioned officer, supervisor, etc).
